

Risk Mitigation Program

Irrigation Conveyance Works Subject Area - Application Tip Sheet

Step 1: Review the following program documents

- Risk Mitigation Program Terms and Conditions
- Irrigation Conveyance Works Subject Area Criteria Document

Any questions about the program or about the steps needed to be completed before submission of an application can be directed to the Subject Area Contact.

Step 2: Complete the Application (Part A)

- Complete all 4 sections.

Step 3: Develop a Project Proposal/Plan (Part B)

1. Project Title:

- Provide a short, descriptive project title that accurately reflects the purpose of the project.
- Project Start is the date you begin the project activities and begin incurring expenses related to the project activities.
- Project End is the date you complete the project activities and are no longer incurring expenses related to the project activities.

2. Overview / Summary of Project:

- Provide a concise overview or summary of your project that explains:
 - the problem or opportunity;
 - the planned activities and their links to the Project Objectives; and
 - the desired outcomes.

3. Problem or Opportunity:

- **Describe why the project is needed or what gaps it will address.**
 - Describe the current situation and how the project will seek to improve this situation.
 - Provide rationale as to why the project is important for sustainable management of and reducing risks to irrigation conveyance works operations and water delivery.
 - Describe the short and long-term impacts on the industry if this project is not pursued.

4. Objectives:

- **What is the project intended to accomplish, what difference will the project make (e.g. benefit to your organization/industry/public) and what results/outcomes are anticipated?**
 - Identify what the project is intended to accomplish.
 - Identify the target audience(s) for this project.
 - Identify why this project is relevant to the target audience(s).
 - Describe the benefit to your organization, the industry and the public.
 - Describe what the anticipated results/outcomes are.

5. Activities:

- **Describe the steps and tasks that will be undertaken to achieve the objectives of the project.**

- Provide a detailed project plan with a complete description of all activities including steps and tasks with associated resources, responsibility for completion (internal staff and contractors), milestones and timelines for completion.
- Describe how the project will adhere to sound scientific or technical protocols.
- Show how major activities align with your risk mitigation objectives and outcomes.

6. Performance Plan:

- **How will you know if your project made a difference? Describe how you intend to measure success in achieving project objectives.**
 - Describe how you intend to measure success in achieving project objectives (clearly state outcomes with associated performance measures for all major activities/milestones that are achievable, relevant and measurable).
 - How will your activities contribute to these performance measures?
 - What are the measurable benefits for the Alberta agriculture industry or sector(s)?

7. Communication Plan:

- **Describe how project information and results will be shared with target audiences/stakeholders.**
 - Include a plan for technology transfer, extension activities and/or communications for your project.

8. Applicant Background:

- **Provide a brief summary about your company/organization. Also, provide a brief description of the capacity (skills, experiences, resources) of your company/organization to manage this project.**
 - Provide information on the roles, expertise and related experience of the internal staff and/or contractors that will work on this project.
 - Provide information on your organization's work on related projects.
 - Explain how your team will be able to achieve all of the outcomes efficiently and effectively within the project timelines and budget. (Explain how your team has the necessary skills, experience and resources necessary to manage, lead and execute the project).

Step 4: Develop a Project Budget (Part C)

- Project Budget must identify all related expenses for each activity including documentation supporting budget request.
- Identify all the expenses for the project, whether funded by the Risk Mitigation Program, by outside contributors, or by the applicant.

Step 5: Attach Additional Documents

- Attach any documentation that supports the need of the project, such as scientific research or reputable reports.
- Attach any documentation that supports your proposed budget expenses.
- Program staff may request additional documentation from an Applicant.

Applications to the Program must be submitted in one of the following ways:

Email: CAP.RiskManagement@gov.ab.ca

Mail: Risk Mitigation Program - Canadian Agricultural Partnership
Alberta Agriculture and Forestry
Program Delivery Section
Suite 301, 7000 113 Street NW
Edmonton AB T6H 5T6

Fax: 780-427-5921

You will be contacted to confirm receipt of your application. Deadlines for submissions of applications are posted on the website.

Step 6: Processing of Applications

Applications completed to the satisfaction of the Minister will be considered for approval on a case-by-case basis, subject to Subject Area eligibility criteria, assessment criteria, and funding constraints. The assessment criteria can be found in section 7.1 of the Irrigation Conveyance Works Subject Area Criteria Document.

You will be informed by an Agriculture and Forestry representative if your application package has been approved or not approved for funding. If approved, you must enter into an Executed Grant with the Minister that is signed by both parties to be eligible to receive funding, and the grant shall be governed by the terms and conditions of the Executed Grant.
